### Most Requested "Do Not Play" Songs

Recently, a national disc jockey magazine published a list of songs that people didn't want to hear at their party. We took the basic list and added other "do not play" songs that would be more relevant to Florida. Ironically, many of the "do not play" songs were also some of the most requested songs to play at parties! Everyone has different tastes... and we try to personalize every party!!

Please check the songs you do not want to hear. If you have other "do not plays" , please add them at the bottom.
